■ International Collaboration and Global Artistic Reach

The work will feature collaborations with artists residing in France, including filmmakers, musicians, and visual artists—delivering Tokyo-based contemporary art from an international perspective. Future overseas performances are also being considered.

Closing Statement

In the aftermath of the COVID-19 pandemic, many theaters were forced to shut down or scale back operations. While audiences are gradually returning, the situation remains challenging.

In such times, we have chosen to take a bold step—to stage this performance in a major theater—demonstrating the enduring power of the performing arts and their potential to shape the future. This is not merely an anniversary performance, but a **symbolic act to “reboot” the cultural landscape.**

Art connects people, elevates a company’s future value, and creates new intersections between businesses and society.

As a group that has consistently pushed the boundaries of expression and envisioned new worlds, **86B210** welcomes your partnership as a “co-runner” in this journey.

We hope you will consider joining us in forging the path toward a more vibrant cultural future.

Sincerely yours,
86B210
